

METHODS OF DISTRIBUTING POSTAGE LABEL SHEETS WITH SECURITY FEATURES

ABSTRACT OF THE DISCLOSURE

A method of providing a value stamp over a communication network includes providing a medium to a user having access to a data processing system. The medium is suitable for printing a value indicium thereon and has an identifier code that identifies the medium. The identifier code of the medium to be used to purchase a value stamp is received from the user. The identifier code is used to decide whether or not to perform an action.
